

Thank you for reaching out regarding your racquet repairs. Please see our repair form now on our website to fill out and send in with your racquet or email back to us.

NOTE: Racquet repairs will NOT be started until completed Repair Form is received via email or a printed copy packaged with racquet.

You may ship your racquet(s) with or without the string. We will need to cut them out though to make the repair. It's best to keep the bumper and grommet on, so we can make sure the holes are the same size if the fracture is in the grommet area when the grommet is put back on.

We found the easiest, quickest and most cost-effective way to ship is via USPS Priority Mail using two envelopes that you can get at the post office (@ no charge). Just put your racquet(s) in one envelope and slide the other over the top and tape them together. They will hold up to 3 racquets. (No need for padding since already broken) Depending on your location and weight, your cost would run approximately \$8.50 on up for Priority Mail (with tracking #)

Ship to: FixMyRacquet
 3357 Rod Carew Dr.
 Round Rock, Texas 78665

We will let you know as soon as your racquet(s) arrives. The average turnaround time is 14-17 business days. When your racquet(s) is/are repaired, we will send you a PayPal Invoice via email and as soon as payment processes, it will generate your tracking #. In the meantime, if you have any questions, please do not hesitate to contact us. We look forward to helping with your repairs.
